

# **IDT Master's Project Proposal**

## **Statement of Purpose:**

- Why are you doing this project? What is the instructional goal and the rationale for this work?

## **Plan**

- What Instructional Design model will you use? Why will you use this one?
- Describe the participants (in general for the proposal; in more detail in the design document) of your project?
- What are the broad objectives for the course?
- What instructional approach will you take? Will it be leader led, self-paced, or some other approach?
- What media will you use?

## **Milestones**

- What are the key stages of your project?

## **Budget**

- How much money do you think this will cost to do? Estimate the amount of money for all materials developed?

## **Timeline**

- When do you propose to meet all of the milestones for your project.

This should be roughly 4-5 pages. It may be shorter, but really should not be much longer.
